Contents

Preface vii

Acknowledgements viii

The methodology of applied climatology in planning and building 1
A. Bitan (Tel Aviv, Israel)

Developing climate-responsive winter cities. 11
N. Pressman (Waterloo, Ont., Canada)

Climate and weather protection systems in settlement planning in the Arctic regions of Northern Norway 23
A. K. Sterten (Trondheim, Norway)

Settlement and housing design with special regard to local climatic conditions in cold and polar regions — examples from Northern Norway 33
A. B. Børve (Bodø, Norway)

A climatic approach to town planning in the Arctic 41
L. R. Zrudlo (Québec, Qué., Canada)

The 5 star design rating system for thermally efficient, comfortable housing in Australia. 65
J. A. Ballinger (Kensington, N.S.W., Australia)

Climatic aspects in rural settlement development in hot, arid zones: a case study of the Central Jordan Valley 73
O. Potchter (Tel Aviv, Israel)

Considering climatic factors for urban land-use planning in the Sahelian zone 91
R. K. Herz (Karlsruhe, F.R.G.)

Street design and urban canopy layer climate 103
T. R. Oke (Vancouver, B.C., Canada)

Results from the research program 'STADTKLIMA BAYERN' for urban planning. 115
H. Mayer (München, F.R.G.)

Climate function maps and urban planning. 123
W. Bründl (München, F.R.G.)

Climate as a factor of a planning project — demonstrated by the example of Dortmund Bornstrasse 129
W. Beckröge (Essen, F.R.G.)

The urban climate as a parameter for urban development 137
L. Katzschner (Kassel, F.R.G.)

Case study: quantitative determination of the pedestrian comfort near a high-rise building 149
A. Lohmeyer, H. Fasslrinner, H. Schmitt and K. Fehrenbach (Karlsruhe, F.R.G.)

A philosophy for teaching wind in the built environment 157
J. A. Wisse (Eindhoven, The Netherlands)

The dispersion of accidentally released gases in a built-up area 163
W. Bächlin and E. J. Plate (Karlsruhe, F.R.G.)

Planning of industrial sites in a city from the point of view of air pollution control 171
M. Nowicki (Warsaw, Poland)

Climatological uses of plants for solar control and the effects on the thermal environment of a building. . . . 181
A. Hoyano (Kanagawa, Japan)

Modelling the time correlation in hourly observations of direct radiation in clear skies 201
H. Madsen and P. Thyregod (Lyngby, Denmark)

Control of urban night temperature in semi-tropical regions during summer 213
M. Moriyama and M. Matsumoto (Kobe, Japan)

An analysis of temperature and moisture variations in the ground under natural climatic conditions 221
M. Matsumoto (Kobe, Japan) and A. Iwamae (Osaka, Japan)

An analysis of the heat storage process in wet soil solved as a coupled problem 239
M. Matsumoto and N. Kotera (Kobe, Japan)

Comfort requirements in indoor climate 249
P. Höppe (München, F.R.G.)

An analysis of stochastic properties of the heating load in an intermittently air-conditioned building. 259
S. Hokoi and M. Matsumoto (Kobe, Japan)

Influence of meteorological conditions of inhabitants' behaviour in dwellings with mechanical ventilation 267
H. Erhorn (Stuttgart, F.R.G.)

Health and well-being disorders in air-conditioned buildings; comparative investigations of the "Building Illness" syndrome 277
P. Kroeling (München, F.R.G.)

Roof lighting and sun protection 283
H. W. Bodmann, K. Eberbach and P. Reuter (Karlsruhe, F.R.G.)

Green for melioration of urban climate 289
F. Wilmers (Hannover, F.R.G.)

Investigation of the thermal performance of passive solar popular apartments in Israel using small-scale physical models. 301
D. Wegner, S. Hassid and M. Poreh (Haifa, Israel)

The absorption of solar energy in a courtyard 309
R. Trenkle (München, F.R.G.)
